PRICE LIST

(Due to shortages and priorities our plans for a large descriptive catalog similar to that of last year have had to be cancelled. Save your 1941 catalog for reference, there probably won't be another until the war is over.)

SPRING, 1942

FRUITS

Plant fruit trees this year — for health — profit — security.

Please note—because of the terms of sale specified by the patent owners, we give no guarantee whatever on patented roses.

We recommend potted everblooming roses
already planted and in good growing condition

Experience has taught us that dormant roses can successfully be planted in northern Colorado only until the middle of April. As it is almost impossible to get root action to start and make plants grow after the days get warm, we do not sell dormant roses after that time. After April 15 we'll have most of the everblooming (HT) varieies as growing plants in large lots. When you buy Richards' roses in pots they are already planted properly in specially prepared fertilized soil to insure rapid, permanent growth and bloom. You can plant them any time through the summer. Drive out to our gardens and make your own selection while plants are in bud and bloom and get IMMEDIATE EFFECT in your own garden. All varieties, while they last. **For sale only at our gardens—cannot be shipped 90c, 10 for \$8.50**

Shrub Roses —

AUSTRIAN COPPER. Single flowers in a flashing color combination of intense copper red inside, golden yellow outside. 2-3 ft. 75c. Extra heavy 4-yr. 5-6 ft. specimens \$2.00

R. RUBRIFOLIA. Purple-red foliage all summer. Studded with starry pink blooms in June followed by bright orange "hips" in autumn and early winter 12-18 ins. 35c, 18-24 ins. 60c.

Climbing Roses — listed under hardy vines.

LAWN SEEDS —

Kentucky Blue Grass, exceptionally clean and pure; heavy, re-cleaned seed, 24-lb. grade—finest you can buy. Lb. 49c, 2 lbs. 95c, 3 lbs. \$1.39, 5 lbs. \$2.10, 10 lbs. \$3.85, 20 lbs. or more @ 37½c lb.

Astoria Creeping Bent ½ lb. 69c, lb. \$1.29.

White Clover ¼ lb. 45c, ½ lb. 79c, lb. \$1.49

Shady Nook Mix'ure, a blend of Poa trivialis, Chewings fescue, Redtop, and Kentucky Blue Grass Lb. 69c, 3 lbs. \$1.98,

5 lbs. \$3.10, 10 lbs. or more @ 59c lb.

DON'T WATER TOO MUCH. Water your shrubs and flowers less frequently and cultivate them more is the rule of the successful gardener. Packed-down soil, even when wet, becomes sour. Frequent cultivation permits sweet fresh air to penetrate and develops deep root systems as a protection from the burning sun in hot weather.

Please Read—

Prices quoted herein cancel all previously quoted prices and are net, cash with order or 50% cash with order, the balance C. O. D. Since it is impossible to predetermine the size and weight of trees, shrubs or plants, transportation charges are not included in the listed prices but when stock is delivered by rail or truck all necessary packing is included free.

For large orders we invite you to use our deferred payment plan. We can arrange a convenient schedule of budget payments to fit your particular needs and our carrying charge is modest.

We exercise the greatest care to keep our varieties pure and true to name and hold ourselves in readiness at all times to replace, on proper proof, all stock which may prove otherwise, or refund the amount paid; but it is mutually agreed between the purchaser and RICHARDS' GARDENS that we shall not, at any time, be liable for any amount greater than the original price.

We unconditionally guarantee every plant we deliver to be of finest quality, true to name and class, sturdy and free from disease, and to reach you in perfect condition; and will replace without charge any plants proving otherwise.

To be able to guarantee the future growth of nursery stock, or any living thing, is beyond human jurisdiction. Nevertheless, we know that, given proper care, our stock will grow satisfactorily; a liberal replacement guarantee is printed on and a part of every invoice of stock we sell.

* * *

In spite of rapidly rising costs of everything used in production of nursery stock we have kept last year's low prices on many items; even reduced prices of certain rare items where increase of stock permits. We have been able to do this partly by higher efficiency in some operations, partly by simply absorbing some of the increased cost. In some cases we had no alternative except a slight increase. We expect to be able to maintain present prices through this spring season but reserve the right to change any prices without notice.

We can no longer undertake to deliver small orders free of charge, even locally. Orders of less than \$5.00 will be charged 25c for city delivery.

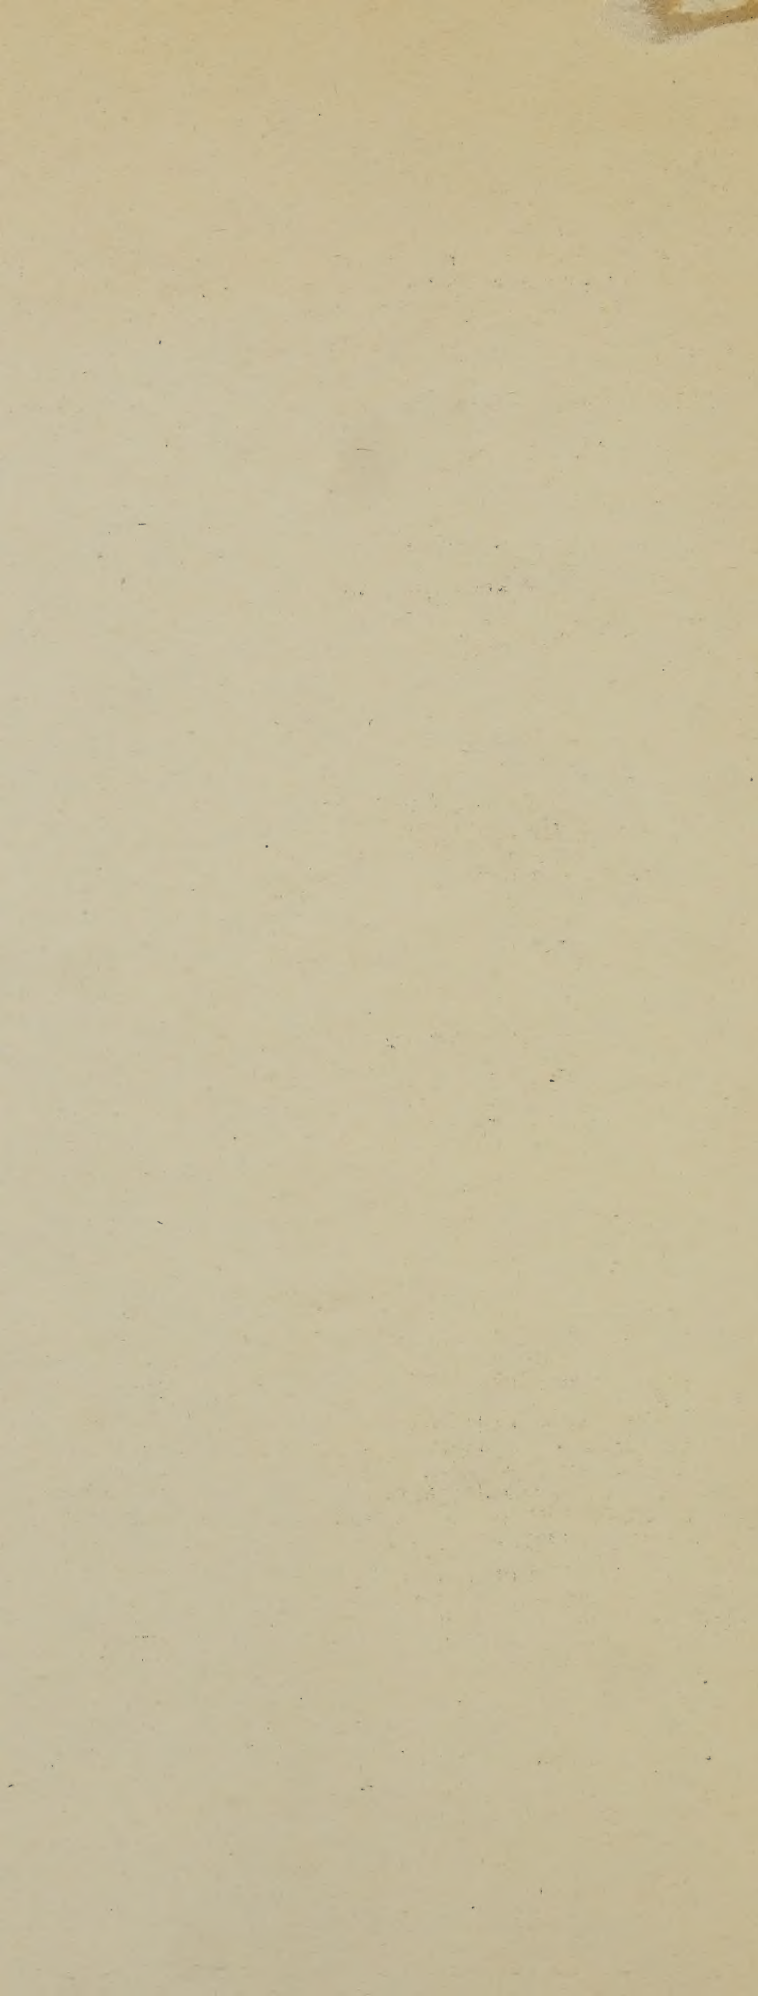

We can still do a limited amount of pruning, spraying and other skilled maintenance work, for which service we charge \$1.50 per hour plus cost of materials used. Our inspection and advisory service will be available to a limited extent, for which the fee is \$1.00 per call, plus time at hourly rate if much is to be done.

Landscaping by Richards' is the only home improvement that does not depreciate! Instead, each passing year adds to the beauty and value of the well-planted home.

We do not "do free landscaping." Drawing a plan free just on the chance of "getting the job" is expensive and some one must pay for it sooner or later. Too often the unfortunate homeowner begins to pay, expensively, just a few years later when he has to grub out shrubs that were planted too close together, or finds beautiful possibilities entirely undeveloped because the "free landscaper" thought more of working in as much as possible of his surplus list than of authentic and artistic design. Our fees are moderate and our plans will save money for you by eliminating over-planting and the use of unsuited plants.

The plan is doubly important for the small home. Indeed, the problem of the small place is mainly one of planning, not planting. A new home without an attractive planting is as incomplete as an interior without drapes or light fixtures. Let us help you bring new beauty to your home this year, now! You will find the cost surprisingly low.

We invite you to visit the nursery any time, and many times, at your convenience, whether you wish to buy plants or supplies or simply "look around". All through the season our gardens are interesting and colorful with large displays in season of the finest roses, iris, peonies, chrysanthemums, and other outstanding flowers and foliage. We'll do our best to answer your questions and help in any way we can "to make your home more beautiful".

NEW OR NOTEWORTHY HARDY PERENNIAL PLANTS

All plants here offered have been grown in our own gardens and are fully winter-hardy under our conditions. They are robust, well-rooted, field-grown full blooming size. Divisions will be supplied where that is the trade custom, as in the case of iris, Shasta daisies and other mat-forming plants.
